**RE: CG Docket No. 04-208  
CG Docket No. 98-170**

**Further Notice of Proposed Rulemaking Regarding Truth-In-Billing and Billing Format**

Dear Ms. Dortch:

On Wednesday, October 26, 2005, representatives of AARP met with the Consumer and Governmental Affairs Bureau staff Jay Keithley, Gene Fullano, Richard Smith, Peter Tenhula, and Erica McMahon to discuss the above Truth-In-Billing proceeding.

AARP staff, Jo Reed, Debra Berlyn and Chris Baker, stated the organization's concern with several of the preliminary determinations in the FNPRM that could weaken consumer protections for wireless services. AARP supports a continued role for state commissioners to regulate the terms and conditions for wireless services, and opposes any FCC action that would preempt such state authority.

Sincerely,

Jo Reed  
National Coordinator, Consumer Issues  
Federal Affairs
